WHAT ARE THE HEALING CODES?

The Healing Codes are an energy therapy discovered by Dr. Alex Loyd in 2001. This simple 6-minute self-administered healing method involves the use of the fingertips of both hands pointing towards one or more of the 4 healing centres of the body. It is shockingly powerful and remarkably effective.

The Healing Codes system is made up of several different codes, each of which implements a unique sequence that stimulates a specific healing centre in the body—thereby eliminating the underlying cause of cancer and nearly every other known disease. This remarkable method:

- Requires nothing more than the fingertips of both hands pointing towards one or more of the 4 different healing centres in the body.
- Takes only 6 minutes to do.

“I have used almost all of the latest and greatest technologies, treatment protocols, techniques, systems, philosophies, and healing modalities in both conventional and alternative medicine, and if I were to choose just one it would be the work of Dr. Alex Loyd.” —Dr. Merrill Ken Galera, medical director of the Galera Centre, and former lead physician of the renowned Dr. Mercola’s Natural Health Centre.

MEDICAL DOCTOR FIGHTS FOR LIFE

The story you are about to hear illustrates the outstanding healing power of The Healing Codes. Several years ago, a well-known medical doctor was in a very life-threatening situation. This doctor was a practicing M.D., D.O. (Osteopath), and NMD (Naturopathic Medical Doctor). When he fell ill, he was overseeing an alternative cancer clinic in Atlanta, Georgia.

When this doctor sought medical care, he was diagnosed with ALS (The most common type of Motor Neuron Disease) / Lou Gehrig’s disease - a very frightening and deadly verdict, worse even than cancer: 80% of those with Lou Gehrig’s die within 5 years, 100% mortality rate at 10 years. So the doctor sought a second opinion, but the diagnosis was the same.

Knowing that traditional medicine offered no hope against Lou Gehrig’s, this doctor began searching across the globe for a cure. He ended up attending a seminar where he heard about The Healing Codes and realised immediately that it was based on scientifically sound evidence.

Divine

Calling

“After only 3 months of using The Healing Codes, I returned to the surgeon who first diagnosed me. He ran the test for Lou Gehrig’s (EMG) and no trace of Lou Gehrig’s disease could be found.”

Dr. Johnson has been symptom-free since March 2004. After his own remarkable recovery, he decided to devote himself to studying The Healing Codes. ***“I resigned from the Immune Recovery Cancer Clinic I helped found and began working with Dr. Loyd to investigate this phenomenon and help spread this technology to the world.”***

HEALING AT THE CELLULAR LEVEL

Unlike traditional medicine, The Healing Codes gets to the heart of the matter and has been shown to address the real cause of sickness and disease at the cellular level...where disease, illness, and sickness actually starts.

Based on the results of their research, a team from the prestigious South-western Medical School in Dallas, Texas is saying they believe the root of illness and disease are ***“destructive cellular memories”*** stored in the body after negative experiences early in life. These cellular memories are even visible with MRI imaging.

“Our best hope for healing incurable illness and disease in the future might very well lie in finding a way to heal destructive cellular memories,” says Dr. John Sarno, professor of the medical school at New York University. ***“If you can heal that cellular memory, then the illness or disease or chronic pain is very likely to heal.”***

FIGHT THE CAUSE NOT JUST THE SYMPTOMS

The Healing Codes eradicate internal stress in as little as 6 minutes in a scientifically provable and reproducible way, thus dealing with the root cause of illness and disease and not just attempting to treat the symptoms. This is the only scientific healing model that:

- Eliminates the root cause of almost any health condition, whether it is physical, emotional or mental - without the use of drugs, surgery or medical treatments.
- Opens the cells of the body and takes them from a “defensive” mode to a “growth” mode.
- Activates the 3 essential components of healing simultaneously, thereby making health restoration a distinct possibility.
